SCHOOL MANAGEMENT SYSTEM

For Nigeria & African School Systems

For school owners & proprietors

Everything your school runs on — in one colourful place.

Students, attendance, results and report cards, CBT with a question bank, entrance and recruitment exams, student, parent and teacher dashboards, ID cards, fees, accounts, payroll, inventory, mail, result analysis and your school website. Built for Nigerian schools, from one campus to forty branches.

✓ No scratch cards ✓ One system, every campus ✓ Nigerian-ready
✓ Backed up every night ✓ Free .com.ng domain

THE PROBLEM

Running a school on five systems is costing you

😣 Five systems that don't talk

Results in one app, fees in Excel, CBT somewhere else, ID cards at a print shop — and nothing agrees.

😣 Result day chaos

Late scores, wrong totals, scratch cards that get lost, parents queueing at the gate.

😣 Money you can't see

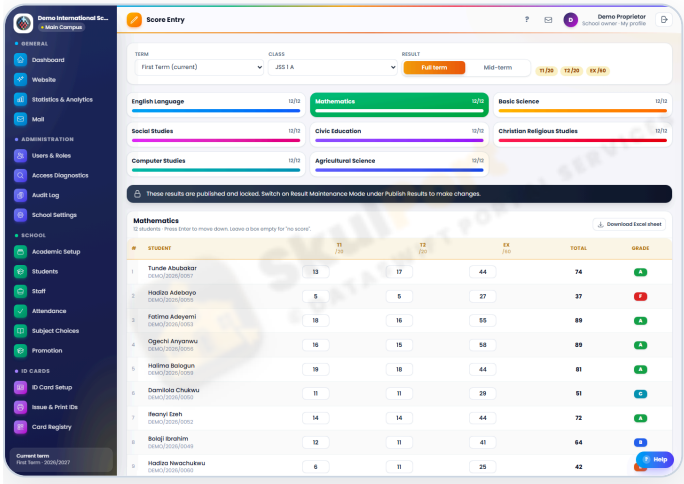

Who has paid? What did we spend? What does the bank really have? Nobody knows until it is too late.

😣 Branches in the dark

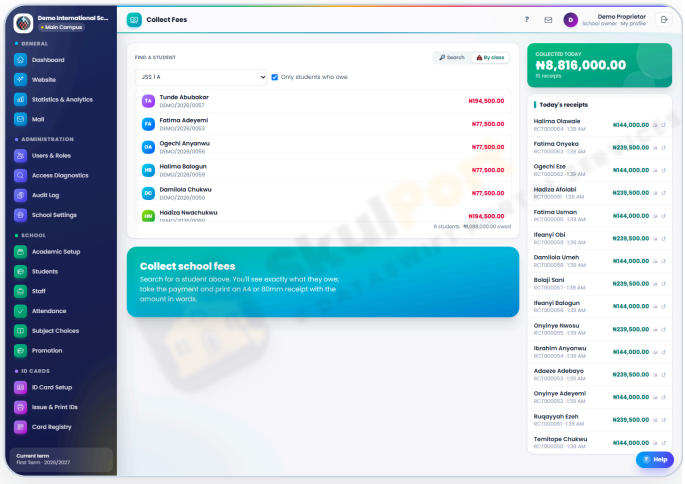

The proprietor cannot see every campus in one place, or trust that each one is doing things right.

One platform instead

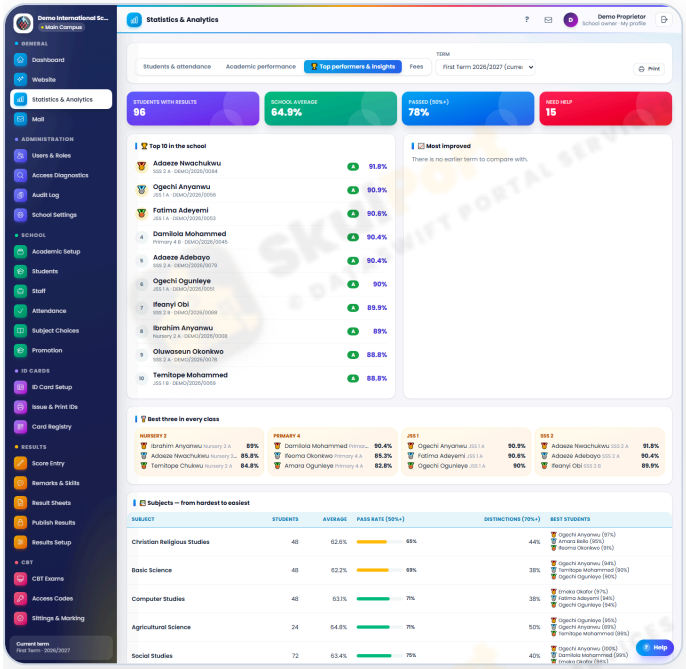

SkulPort replaces your results software, CBT, ID card vendor, fee spreadsheets, payroll sheet and website with one system that shares the same students, the same classes and the same money — across every branch.

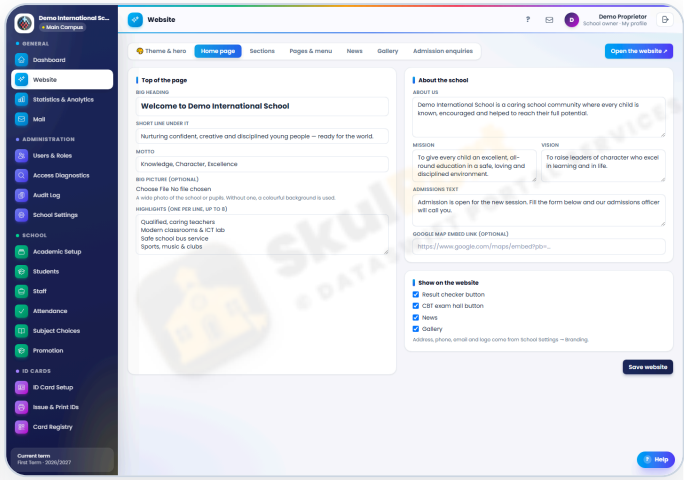

Score entry — totals and grades as you type

DATASWIFT PORTAL SERVICES

WHAT YOU GET

16 parts. One login.

School management
Students, staff, classes & arms, admission numbers, attendance (once or twice a day), holidays and calendar, promotion, subject choice.

Results & report cards
Your own headings (Test 1…n + Exam), grade scales, skills, remarks, positions, third-term cumulative, Head Teacher/Principal signatures, Excel score upload, publish & lock.

CBT
Timed papers, shuffled questions, power-cut safe, theory marking, question analysis, scores flow straight into results.

Student & parent portal
Admission No + PIN: results without scratch cards, CBT subjects, fees statement, attendance, online payment.

ID cards
10 designs, QR verification, student & staff cards, printing in batches, revoke lost cards instantly.

Fees & accounting
Billing, receipts, discounts, debtors, expenses, store, petty cash, requisitions, budgets, full double-entry books and reports.

Payroll
Salaries, allowances, PAYE (NTA 2025), pension, NHF, loans, payslips and bank schedule.

Internal mail
Professional mail between HQ and every branch — groups, attachments, replies — plus outside email.

Result analysis
Ten analyses with their own search options: subjects, grades, ranking, best per subject, students at risk, boys vs girls, arms, progress, subject teachers.

School website
5 themes, hero slider or video, your own pages and menu, news, gallery, admission enquiries.

Report cards your way
Design the report card per school and per class: styles, colours, parts on/off, skills on the right, Pre-Nursery observation reports (A–E), promotion status, broadsheets in Excel and PDF.

Question Bank & exams
Questions by class and subject for every branch, diagrams and grouped questions, entrance exams for applicants and recruitment exams for job candidates.

Parent & teacher dashboards
Parents see every child: results, fees, receipts, homework and messages. Form teachers see their class, debtors, lessons and their own children.

Classwork & e-learning
Homework, assignments, holiday projects, lesson notes, e-learning links and recommended textbooks on every student's dashboard.

Inventory & materials
Consumables issued to departments (e.g. hostel tissue packs) and tools lent and returned (hoes, shovels) with signatures and usage reports.

Action notices

Notices that pop up until confirmed, reminders to choose subjects, and messages between families and the school.

MADE FOR NIGERIA

Built around how Nigerian schools really work

- Three-term sessions, mid-term and terminal results, third-term cumulative averages
- WAEC-style grades (A1–F9) or your own scale; nursery skill ratings
- Morning and afternoon registers counted as the school prefers
- PAYE by the Nigeria Tax Act 2025, pension (8%/10%), NHF, NUBAN bank schedules
- Paystack, Flutterwave, Monnify, Squad and Remita for online fees
- Nigerian public holidays, naira everywhere, runs well on low data
- Works on ordinary cPanel hosting — no expensive servers

Why owners trust it

🔒 One permanent PIN per student

No more scratch cards: the PIN is on the ID card and works for results, CBT and the portal together with the admission number.

🔒 Nothing is ever silently changed

Published results are frozen. Money is reversed, never deleted. Every change is in the audit log.

🔒 Backed up every night, and tested

Each school's data is backed up nightly and the backup is test-restored automatically.

🔒 Everyone sees only what they should

Roles per branch, a clear 'why can this person see this?' page, and licences per module.

🔒 Each school's data is separate

Every school — and every branch — has its own database.
